COURSE BROCHURE

Locomotive Movement Control Using Information Systems

Services / Transport, Operations and Logistics

Unit Standard 256214 · NQF Level 3 · 4 Credits · 1 Day

COURSE OVERVIEW

This course equips learners with the knowledge and skills to control locomotive movements within a specified work environment using an information system. It covers the application of relevant safety regulations, operational procedures, and system functionalities to ensure efficient and safe train movements. By the end of the course, participants will be able to effectively manage locomotive movements while adhering to industry standards.

Category	Services
Subfield	Transport, Operations and Logistics
Unit Standard	256214
Accreditation	SAQA Accredited · NQF Level 3 · 4 Credits
Duration	1 day
Training Method	Online, On-Campus, In-House
Certificate	Issued via AATICD LMS – verifiable online

LEARNING OUTCOMES

- Apply relevant safety regulations and operational procedures to control locomotive movements using an information system.
- Demonstrate the ability to input and interpret data within the information system to manage train movements.
- Analyze real-time information from the system to make informed decisions regarding locomotive control.
- Evaluate potential risks and hazards associated with locomotive movements and implement corrective actions.
- Coordinate communication with relevant stakeholders using the information system to ensure smooth operations.
- Implement contingency plans in response to system failures or emergencies while maintaining safety.

WHO SHOULD ATTEND

- This course is designed for locomotive drivers, yard supervisors, and rail operations personnel who are responsible for controlling or overseeing locomotive movements within a defined work environment.

COURSE OUTLINE

Day 1: Introduction to Locomotive Movement Control Using Information Systems

- Overview of locomotive movement control systems
- Information systems in railway operations
- Key components: sensors, controllers, displays, communication links
- Operational procedures for safe movement
- Communication protocols (e.g., radio, data links)
- Basic troubleshooting and fault reporting
- Safety regulations and standard operating procedures

ASSESSMENT & CERTIFICATION

Delegates are assessed through exercises and a final test. A mark of **50% or above** earns an **AATICD Certificate of Completion**, issued digitally with a unique verification code. This course carries **4 NQF credits** at **NQF Level 3**.
